AVENUE + AQUATIC

A FLOOD FREE CITY AND SAFE SHORE – WATER AS A PLAYGROUND.

THE IDEA OF THE PROJECT IS BORN FROM THE WISH TO LIMIT THE DAMAGES DUE TO THE HUGE STORMS AND RAINS PRESENT IN CARTAGENA, ACCORDING TO A DEMAND OF ECONOMIC, SOCIAL AND ENVIRONMENTAL SUSTAINABILITY. IN BOCAGRANDE THE ROADS ARE OFTEN FLOODED BOTH BECAUSE THERE AREN'T EFFICIENT DRAINAGE INFRASTRUCTURE, BOTH FOR ITS GEOGRAPHICAL SHAPE, THAT MOSTLY EXPOSES TO THE FLOODS. THE PROJECT AIMS TO TURN SPACES INTO DIFFERENT PLAYGROUNDS WHICH COULD CONFER TO THIS DENSE AND HOMOGENEOUS PART OF CITY, A NEW IMAGE WITH MORE CHARACTERISTIC.

THE NEW SPACES RESPOND TO THE DEMANDS OF THE RESIDENTS AND THEY OFFER PLAYGROUNDS FOR THE CHILDREN. BESIDES THESE SPACES CREATE A DIRECT CONNECTION BETWEEN THE CITY AND THE SEA, WIDENING THE PERIMETER OF THE BEACHES AND OFFERING MORE AND NEW FACILITIES.
